

Intelligence in the **Cryptoasset Market**

An **innovative company** in the investment and crypto-asset market, with real and automated operations.

WHO WE ARE

We were born from the union of developers, blockchain specialists, and data analysts. Our vision is to bring the highest automation technology to the decentralized finance ecosystem.

Our 3 Operational Pillars:

High-Performance Automation: We develop proprietary algorithms that analyze the market and execute trades 24/7. We eliminate the emotional factor and focus on technological risk management, reacting to data in milliseconds.

Transparency via Blockchain:

We believe that trust is built through verification. Our infrastructure utilizes smart contracts and blockchain ledgers, ensuring clarity and traceability in transactions.

Innovation and Legacy: Our name reflects our purpose. We combine the constant pursuit of technological innovation (Inova) with the construction of a solid and lasting structural foundation (Legacy) to operate behind the scenes of Web3.

INVESTMENTS

Minimum investment

US\$ 20.00

Maximum investment
